MOTHER who couldn't take it Once there was a mother who had a normal, healthy boy. And he liked to do the things that normal, healthy boys like to do. But, for a long while, Mother couldn't take it. She kept saying, "DON'T Bobbyyou'll hurt yourself!" Then one day, as she passed the playground, she marveled at a bold youngster's feats on the horizontal ladder. And, coming closer, she discovered it was Bobby! Now she has more confidence in her son . . . and better understands his confidence in himself Sound religious training begins with confidence and understanding. In churches of our community youthful eagerness is directed toward right motives, high ideals, clean activities. Moral and spiritual conviction begin to supersede daring and pride as incentives
